

WHATSAPP → OUTLOOK

Calendar Assistant

BY PAYSYS | The WhatsApp-to-Outlook command center

- NATURAL-LANGUAGE SCHEDULING
- CONFLICT DETECTION
- REPLY-TO-MANAGE
- OUTLOOK-NATIVE

Schedule, modify, and manage meetings without leaving your chat.

You message a WhatsApp number in plain language. It reads, books, and manages events directly in your Outlook calendar — no app to open, no form to fill.

WHATSAPP

"Schedule"

"Check schedule"

"Double book"

ONE CONVERSATION, BOTH DIRECTIONS

OUTLOOK

A one-time connection bridges your chat to your calendar.

1

Send any message to the WhatsApp number to kick things off.

+92 326 8325914

2

Tap the link the bot replies with and enter the code it sends.

microsoft.com/devicelogin

3

Sign in with Microsoft

Authorize once. Your Outlook calendar is now connected.

● **Connected**

DONE ONCE ◆ **Connected forever — you never repeat this.**

How a plain sentence becomes a structured Outlook invite.

YOU SEND

Meeting with Kashif on 2026-05-30 at 2:00 PM
, subject: RAAST Review

PARSED

◆ Outlook Event Card		
PERSON	Kashif	●
DATE	2026-05-30	●
TIME	2:00 PM	●
SUBJECT	RAAST Review	●

BUILT-IN CONFLICT CHECK

If the slot is clear, the event is created instantly. If it conflicts, the bot replies with your nearest free slots — before anything is booked.

Avoid the follow-up tax — give complete details upfront.

✓ Full format → executes instantly

```
Schedule a meeting with Maddlaaj on 2026-05-30 from 2:00 PM to 3:00 PM Subject: RAAST Implementation Location: UBL Office Meeting link: Online
```

```
• Event scheduled
```

! Minimal format → costs you round-trips

```
Meeting with Maddlaaj at 2 PM
```

```
What date?
```

```
What subject?
```

```
How long?
```

```
Where?
```

RULE ◆ The minimal format triggers multiple clarifying questions. The full format executes in a single message.

Reply to any bot message to manage that exact meeting.

No need to retype names or dates — swipe to reply on a confirmation and the bot already knows which event you mean.

"Cancel this meeting"

Bot confirms the meeting name; you reply yes / no.

"Add kashif@company.com to this meeting"

Adds an attendee via directory lookup or email.

"Reschedule this to 5 PM"

Moves the meeting, keeps the same duration.

"Remove Maddlaaj from this meeting"

Drops the attendee from the invite.

RULE OF THUMB ◆ Reply directly to a bot message to act on that meeting — no details retyped.

See your week — and force an override when you must.

QUERY YOUR SCHEDULE
